Phoenix, AZ, January 6, 2022—Local consulting engineering firm, Speedie & Associates, Inc. (S&A) grows its Geotechnical team with the hiring of Todd Hanke, P.E., as Senior Geotechnical Project Manager. Hanke is a registered professional engineer for the State of Arizona with more than 22 years of experience in geotechnical and geological engineering as related to commercial/industrial projects as well as airports, roadways, and civil works. Hanke received his Bachelor of Science in Geotechnical Engineering and Geology and Geophysics from the University of Wisconsin.

Hanke started his career in 1999 as a staff engineer in Rochester, Minnesota for Braun Intertec. His first project there was construction oversight of a large Mayo Clinic expansion. He moved to Phoenix in 2001 and worked for Speedie from 2001 to 2015. For the last six years, he has worked for the Transtec Group in Austin, Texas focusing on pavement projects (highways and airports), including being one of the lead engineers on the 202 South Mountain Freeway. He brings with him a varied resume that includes projects throughout the United States.

Hanke's duties will include providing supervision on geotechnical and forensic investigations, authoring and reviewing technical reports, providing technical guidance and support to the professional staff, and assisting with business development efforts.

"Todd is a great fit for the Speedie team and culture. He brings a wealth of knowledge and industry experience," said President Gregg A. Creaser, P.E.

Away from the office, Hanke and his wife of 15 years enjoy traveling, working out in their home gym, and participating in obstacle course races.

About Speedie & Associates, Inc.

Speedie & Associates, Inc. (S&A) is a consulting engineering firm specializing in geotechnical and environmental engineering as well as construction monitoring and materials testing. Our firm has extensive experience in Arizona and the Southwest and has operated in Phoenix since 1980. S&A's main office and laboratory facility is based in Phoenix, Arizona and the firm currently operates branch facilities in Tucson and Flagstaff, Arizona.

Consistently ranked as one of Arizona's top specialty engineering firms, S&A provides clients with sound, economical solutions to today's sometimes-difficult engineering scenarios. As a recognized leader throughout Arizona, S&A is dedicated to customer service by providing highly talented and committed individuals who will work together with a strong sense of unity and teamwork to achieve, and excel beyond, the goals of each project. S&A's professionals have strong, long-standing working relationships with local, county, and state agencies that help facilitate projects through the regulatory requirements from the planning stage through final completion.
